

CyberSentinel AI Executive Threat Assessment Report

Report ID: REP-B5BA6A71 | Generated By: admin@cybersentinel.ai | Date: 2026-09-05 16:41:43 UTC

1. Executive Summary

CyberSentinel AI conducted an AI-assisted defensive security assessment on 2026-09-05 16:41:43 UTC. A total of 1009 vulnerability findings were identified across analyzed endpoints. This includes 6 Critical, 194 High, 633 Medium, and 176 Low severity items. Immediate remediation action is recommended for all Critical and High findings to reduce platform risk exposure.

2. Assessment Overview & Methodology

This automated security evaluation utilizes CyberSentinel AI's multi-layered Deep Learning architecture. Traffic flow vectors are analyzed across 32 numerical attributes using Artificial Neural Networks (ANN/MLP), 1D Convolutional Neural Networks (1D CNN), and LSTM temporal sequence models trained on defensive CIC-IDS security benchmarks. Predictions are augmented with a transparent risk scoring engine and feature importance explainability.

3. Severity Distribution Summary

Total Findings	Critical	High	Medium	Low
1009	6	194	633	176

4. Detailed Technical Findings & Remediation

1. [CRITICAL] Critical SQL Injection Attempt Detected (FIND-2026-001)

Category: Web Attack - SQL Injection | **Confidence:** 98.5% | **Asset:** /api/v1/auth/login | **Status:** New

Description: Multiple SQL injection payloads detected in User-Agent and HTTP query parameters attempting database schema extraction.

Potential Impact: Unauthorized database read access, credential exfiltration, or administrative authentication bypass.

Recommended Remediation: Upgrade database access layer to Async SQLAlchemy ORM parameters and apply rate-limiting middleware.

2. [CRITICAL] Volumetric DDoS Flood Traffic Detected (FIND-2026-002)

Category: DDoS | **Confidence:** 99.2% | **Asset:** /api/v1/gateway | **Status:** Under Review

Description: High packet flow velocity exceeding 35,000 packets/sec observed from distributed source IPs targeting main API gateway.

Potential Impact: Service disruption, resource exhaustion, and HTTP 503 gateway timeouts for legitimate users.

Recommended Remediation: Apply rate limiting rules in FastAPI middleware and Cloudflare proxy rules.

3. [HIGH] High Frequency Port Scanning Activity (FIND-2026-003)

Category: PortScan | Confidence: 96.8% | Asset: 192.168.1.105 (Internal Subnet) | Status: Confirmed

Description: Sequential TCP SYN probes detected across ports 1-1024 originating from an external untrusted host.

Potential Impact: Reconnaissance identifying exposed internal microservices and vulnerable listening ports.

Recommended Remediation: Update iptables firewall rules to drop SYN probe sweeps automatically.

4. [HIGH] Botnet Command & Control Keepalive Signals (FIND-2026-004)

Category: Bot | Confidence: 94.3% | Asset: 10.0.4.12 (Database Host) | Status: New

Description: Periodic outbound beaconing traffic with suspicious payload signatures detected towards external C2 servers.

Potential Impact: Potential host compromise, malware beaconing, or data exfiltration channel.

Recommended Remediation: Quarantine host 10.0.4.12, rotate database credentials, and revoke active JWT tokens.

5. [CRITICAL] AI Alert: Denial of Service (DoS) Activity Detected from 192.168.1.125 (VULN-56FEB4F5)

Category: Denial of Service (DoS) | Confidence: 99.59% | Asset: /api/v1/gateway | Status: New

Description: High packet rate (rst_flag_count=3.6366) combined with asymmetric forward-to-backward packet ratio and anomalous SYN/RST flag frequency indicating volumetric flood.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 192.168.1.10.

Recommended Remediation: Block inbound traffic from source IP 192.168.1.125 and review security policies.

6. [CRITICAL] AI Alert: Denial of Service (DoS) Activity Detected from 192.168.1.125 (VULN-0858D386)

Category: Denial of Service (DoS) | Confidence: 99.88% | Asset: /api/v1/network | Status: New

Description: High packet rate (total_length_of_fwd_packets=4.4122) combined with asymmetric forward-to-backward packet ratio and anomalous SYN/RST flag frequency indicating volumetric flood.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 192.168.1.10.

Recommended Remediation: Block inbound traffic from source IP 192.168.1.125 and review security policies.

7. [CRITICAL] AI Alert: Web Attack - SQLi Activity Detected from 192.168.1.125 (VULN-467682DB)

Category: Web Attack - SQLi | Confidence: 99.89% | Asset: /api/v1/network | Status: New

Description: Abnormally large HTTP payload size (fwd_packet_length_mean=3.871) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 192.168.1.10.

Recommended Remediation: Block inbound traffic from source IP 192.168.1.125 and review security policies.

8. [HIGH] AI Alert: Brute Force Activity Detected from 192.168.1.125 (VULN-E47D73EF)

Category: Brute Force | Confidence: 99.95% | Asset: /api/v1/network | Status: Confirmed

Description: Repeated authentication flow sequences on port 5.1234 with elevated TCP PSH flag count and sustained packet inter-arrival times.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 192.168.1.10.
Recommended Remediation: Block inbound traffic from source IP 192.168.1.125 and review security policies.

9. [MEDIUM] AI Alert: PortScan Activity Detected from 192.168.1.125 (VULN-5E92917C)

Category: PortScan | **Confidence:** 99.96% | **Asset:** /api/v1/network | **Status:** Confirmed
Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.
Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 192.168.1.10.
Recommended Remediation: Block inbound traffic from source IP 192.168.1.125 and review security policies.

10. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-646FDA9D)

Category: PortScan | **Confidence:** 97.28% | **Asset:** /api/v1/network | **Status:** New
Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.
Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.
Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

11. [MEDIUM] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-9DFAB4E2)

Category: Web Attack - SQLi | **Confidence:** 48.62% | **Asset:** /api/v1/network | **Status:** New
Description: Abnormally large HTTP payload size (average_packet_size=11.9709) containing high density of SQL/Script injection markers.
Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.
Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

12. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-9B6F9B28)

Category: PortScan | **Confidence:** 88.84% | **Asset:** /api/v1/network | **Status:** New
Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=6.0631) characteristic of automated host discovery.
Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.
Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

13. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-00EE2A5E)

Category: PortScan | **Confidence:** 98.69% | **Asset:** /api/v1/network | **Status:** New
Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.
Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.
Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

14. [MEDIUM] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-B5F88B2C)

Category: Web Attack - SQLi | **Confidence:** 69.22% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=13.5229) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

15. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-60007722)

Category: PortScan | **Confidence:** 94.47% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=4.2353) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

16. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-123299DF)

Category: PortScan | **Confidence:** 69.8% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=9.5929) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

17. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-A5A11141)

Category: PortScan | **Confidence:** 94.15% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=4.3719) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

18. [MEDIUM] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-ED551D9D)

Category: Web Attack - SQLi | **Confidence:** 48.21% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=11.9426) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

19. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-CDF00399)

Category: PortScan | **Confidence:** 91.47% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=5.2862) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

20. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-A25F21C2)

Category: PortScan | **Confidence:** 98.82% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

21. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-0D68B784)

Category: Web Attack - SQLi | **Confidence:** 92.27% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=16.4958) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

22. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-E820F3EC)

Category: PortScan | **Confidence:** 98.87% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

23. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-48B6893B)

Category: PortScan | **Confidence:** 95.79% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=3.5373) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

24. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-12F1CB66)

Category: PortScan | **Confidence:** 96.95% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

25. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-D07E27FA)

Category: PortScan | **Confidence:** 81.08% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=7.745) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

26. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-B2E294D4)

Category: PortScan | **Confidence:** 98.9% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

27. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-7F25C359)

Category: PortScan | **Confidence:** 58.48% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=10.84) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

28. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-6918B7F0)

Category: PortScan | **Confidence:** 98.44% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

29. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-CD7DD015)

Category: PortScan | **Confidence:** 98.84% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

30. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-A5D43B9F)

Category: PortScan | **Confidence:** 87.18% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=6.4677) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

31. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-9CEC8822)

Category: PortScan | **Confidence:** 90.37% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=5.6253) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

32. [MEDIUM] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-9D2805AD)

Category: Web Attack - SQLi | **Confidence:** 53.37% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=12.2963) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

33. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-B5B5EE1D)

Category: PortScan | **Confidence:** 58.02% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=10.8832) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

34. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-849522AB)

Category: Web Attack - SQLi | **Confidence:** 93.22% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=16.7374) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

35. [MEDIUM] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-5A2F38C7)

Category: Web Attack - SQLi | **Confidence:** 66.93% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=13.3252) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

36. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-86FD2019)

Category: Web Attack - SQLi | **Confidence:** 84.78% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=15.188) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

37. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-B7273B5C)

Category: PortScan | **Confidence:** 93.86% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=4.4918) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

38. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-D4E824DD)

Category: PortScan | **Confidence:** 59.65% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=10.7272) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

39. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-D9954190)

Category: PortScan | **Confidence:** 64.4% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=10.2347) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

40. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-F380899D)

Category: PortScan | **Confidence:** 98.69% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

41. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-8D2C4789)

Category: PortScan | **Confidence:** 87.11% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=6.4845) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

42. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-78D44870)

Category: PortScan | **Confidence:** 81.38% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=7.6921) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

43. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-3462C151)

Category: Web Attack - SQLi | **Confidence:** 92.89% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=16.6492) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

44. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-74197D90)

Category: PortScan | **Confidence:** 78.26% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=8.2762) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

45. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-40CC6053)

Category: PortScan | **Confidence:** 69.14% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=9.6759) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

46. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-4A33B091)

Category: Web Attack - SQLi | **Confidence:** 93.3% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=16.7586) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

47. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-03165077)

Category: Web Attack - SQLi | **Confidence:** 77.04% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=14.2734) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

48. [MEDIUM] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-A3D2102D)

Category: Web Attack - SQLi | **Confidence:** 51.55% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=12.1712) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

49. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-6840CC43)

Category: PortScan | **Confidence:** 89.07% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=6.0005) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

50. [MEDIUM] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-DF738B90)

Category: Web Attack - SQLi | **Confidence:** 61.05% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=12.8573) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

51. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-28A3B3D9)

Category: PortScan | **Confidence:** 98.74% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

52. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-52FE75C0)

Category: PortScan | **Confidence:** 97.58% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

53. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-20201A68)

Category: PortScan | **Confidence:** 92.49% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=4.9601) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

54. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-7F445D79)

Category: PortScan | **Confidence:** 98.89% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

55. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-C9176CEF)

Category: Web Attack - SQLi | **Confidence:** 87.11% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=15.5186) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

56. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-8475D253)

Category: Web Attack - SQLi | **Confidence:** 76.04% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=14.1699) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

57. [MEDIUM] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-B5C8AD21)

Category: Web Attack - SQLi | **Confidence:** 57.64% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=12.6) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

58. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-6FBA51A1)

Category: PortScan | **Confidence:** 70.65% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=9.482) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

59. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-B5CB4613)

Category: PortScan | **Confidence:** 95.52% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=3.691) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

60. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-165FC94C)

Category: PortScan | **Confidence:** 89.83% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=5.7865) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

61. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-6CA5DED7)

Category: Web Attack - SQLi | **Confidence:** 93.37% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=16.7776) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

62. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-65E07FE8)

Category: PortScan | **Confidence:** 65.91% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=10.0672) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

63. [MEDIUM] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-05BD3B2E)

Category: Web Attack - SQLi | **Confidence:** 51.15% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=12.1437) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

64. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-C220F59D)

Category: PortScan | **Confidence:** 81.38% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=7.6921) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

65. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-9EA18AB5)

Category: PortScan | **Confidence:** 95.88% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=3.4814) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

66. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-B6301F90)

Category: Web Attack - SQLi | **Confidence:** 85.1% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=15.2305) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

67. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-4D9E3A55)

Category: Web Attack - SQLi | **Confidence:** 84.74% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=15.1821) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

68. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-1F931F73)

Category: PortScan | **Confidence:** 95.16% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=3.8969) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

69. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-EDDCBB8D)

Category: PortScan | **Confidence:** 98.2% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

70. [MEDIUM] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-E54B62D9)

Category: Web Attack - SQLi | **Confidence:** 62.93% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=13.0021) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

71. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-45A7E8C1)

Category: PortScan | **Confidence:** 92.41% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=4.9872) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

72. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-563CDF84)

Category: PortScan | **Confidence:** 62.78% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=10.4085) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

73. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-28D13E2B)

Category: PortScan | **Confidence:** 77.28% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=8.4549) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

74. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-22D1BB1D)

Category: PortScan | **Confidence:** 78.28% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=8.2728) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

75. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-DBBCBF61)

Category: PortScan | **Confidence:** 72.7% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=9.1964) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

76. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-5492B6BE)

Category: Web Attack - SQLi | **Confidence:** 72.07% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=13.7827) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

77. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-2B9A5935)

Category: PortScan | **Confidence:** 98.32% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

78. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-08BEABB2)

Category: PortScan | **Confidence:** 70.08% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=9.556) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

79. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-0CA4900A)

Category: PortScan | **Confidence:** 91.87% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=5.1518) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

80. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-F802416F)

Category: PortScan | **Confidence:** 71.92% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=9.3063) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

81. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-C065539C)

Category: Web Attack - SQLi | **Confidence:** 86.51% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=15.4289) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

82. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-0CA144DE)

Category: Web Attack - SQLi | **Confidence:** 80.11% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=14.6039) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

83. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-7DC03D64)

Category: PortScan | **Confidence:** 98.53% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

84. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-DA021584)

Category: PortScan | **Confidence:** 86.26% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=6.6717) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

85. [MEDIUM] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-A3511244)

Category: Web Attack - SQLi | **Confidence:** 71.22% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=13.7038) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

86. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-D080B1B4)

Category: Web Attack - SQLi | **Confidence:** 92.82% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=16.6309) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

87. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-C5536DDB)

Category: PortScan | **Confidence:** 87.8% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=6.3259) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

88. [MEDIUM] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-7D6C3130)

Category: Web Attack - SQLi | **Confidence:** 66.41% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=13.2817) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

89. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-AD1691D8)

Category: PortScan | **Confidence:** 98.94% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

90. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-6C208AB6)

Category: Web Attack - SQLi | **Confidence:** 85.27% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=15.2535) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

91. [MEDIUM] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-AEE9D6C8)

Category: Web Attack - SQLi | **Confidence:** 55.39% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=12.4355) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

92. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-57FB9810)

Category: PortScan | **Confidence:** 91.12% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=5.3945) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

93. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-E18594CB)

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

114. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-D5DF50D1)

Category: PortScan | **Confidence:** 98.82% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

115. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-C8C24554)

Category: PortScan | **Confidence:** 98.44% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

116. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-09F9B313)

Category: PortScan | **Confidence:** 92.57% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=4.937) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

117. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-C864AA91)

Category: PortScan | **Confidence:** 78.72% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=8.1898) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

118. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-4EEDE4CD)

Category: PortScan | **Confidence:** 89.02% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=6.0151) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

119. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-5FBEB56D)

Category: PortScan | **Confidence:** 98.68% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

120. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-FABAFDB8)

Category: PortScan | **Confidence:** 74.62% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=8.9005) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.
Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

121. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-F63B8317)

Category: PortScan | **Confidence:** 96.02% | **Asset:** /api/v1/network | **Status:** New
Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=3.3995) characteristic of automated host discovery.
Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.
Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

122. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-BAF88D7A)

Category: PortScan | **Confidence:** 51.99% | **Asset:** /api/v1/network | **Status:** New
Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=11.4055) characteristic of automated host discovery.
Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.
Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

123. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-CC3BF8CA)

Category: Web Attack - SQLi | **Confidence:** 88.38% | **Asset:** /api/v1/network | **Status:** New
Description: Abnormally large HTTP payload size (average_packet_size=15.7215) containing high density of SQL/Script injection markers.
Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.
Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

124. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-A7D37724)

Category: PortScan | **Confidence:** 83.77% | **Asset:** /api/v1/network | **Status:** New
Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=7.2402) characteristic of automated host discovery.
Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.
Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

125. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-7CC3AA98)

Category: Web Attack - SQLi | **Confidence:** 92.73% | **Asset:** /api/v1/network | **Status:** New
Description: Abnormally large HTTP payload size (average_packet_size=16.6075) containing high density of SQL/Script injection markers.
Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.
Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

126. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-80D8C4B5)

Category: Web Attack - SQLi | **Confidence:** 75.93% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=14.1587) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

127. [MEDIUM] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-A083C7D8)

Category: Web Attack - SQLi | **Confidence:** 71.53% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=13.7321) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

128. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-17761311)

Category: PortScan | **Confidence:** 67.72% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=9.8524) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

129. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-ADA36FB0)

Category: PortScan | **Confidence:** 98.87% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

130. [MEDIUM] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-2999F7EA)

Category: Web Attack - SQLi | **Confidence:** 57.24% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=12.5703) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

131. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-3CA96B34)

Category: PortScan | **Confidence:** 98.49% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

132. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-97BAF92C)

Category: PortScan | **Confidence:** 97.44% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

133. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-9FBCC10F)

Category: Web Attack - SQLi | **Confidence:** 76.37% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=14.2041) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

134. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-C0AC6C09)

Category: PortScan | **Confidence:** 98.68% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

135. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-37EF826B)

Category: Web Attack - SQLi | **Confidence:** 88.29% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=15.7055) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

136. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-E8A7C178)

Category: Web Attack - SQLi | **Confidence:** 81.52% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=14.7692) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

137. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-91BFFFE5)

Category: PortScan | **Confidence:** 97.94% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

138. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-A229DF38)

Category: PortScan | **Confidence:** 98.07% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

139. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-C984DA71)

Category: PortScan | **Confidence:** 73.41% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=9.09) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

140. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-ABFC5D34)

Category: PortScan | **Confidence:** 94.72% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=4.121) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

141. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-EEEE59D3)

Category: PortScan | **Confidence:** 69.15% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=9.6755) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

142. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-C111F164)

Category: PortScan | **Confidence:** 98.81% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

143. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-98C1592C)

Category: PortScan | **Confidence:** 71.44% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=9.374) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

144. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-2E5E4E0C)

Category: PortScan | **Confidence:** 76.84% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=8.5342) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

145. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-EABB114F)

Category: PortScan | **Confidence:** 98.54% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

146. [MEDIUM] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-DB962A80)

Category: Web Attack - SQLi | **Confidence:** 68.09% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=13.4246) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

147. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-16156AE5)

Category: PortScan | **Confidence:** 90.98% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=5.441) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

148. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-9D06BA2B)

Category: PortScan | **Confidence:** 98.41% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

149. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-8A969F39)

Category: PortScan | **Confidence:** 74.73% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=8.8841) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

150. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-9631B9CF)

Category: PortScan | **Confidence:** 53.98% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=11.2461) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

151. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-D45BB419)

Category: PortScan | **Confidence:** 98.92% | **Asset:** /api/v1/network | **Status:** New

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

172. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-B734BEC8)

Category: PortScan | **Confidence:** 98.89% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

173. [MEDIUM] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-4850F905)

Category: Web Attack - SQLi | **Confidence:** 71.32% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=13.7127) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

174. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-C87E3FF9)

Category: PortScan | **Confidence:** 97.45% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

175. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-E820DA94)

Category: PortScan | **Confidence:** 85.58% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=6.8381) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

176. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-C747A75E)

Category: PortScan | **Confidence:** 71.39% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=9.3807) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

177. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-D1DA32C7)

Category: PortScan | **Confidence:** 97.41% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

178. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-B2262AF9)

Category: PortScan | **Confidence:** 61.46% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=10.5463) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

179. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-D4D0D72D)

Category: PortScan | **Confidence:** 98.82% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

180. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-E5D354BB)

Category: Web Attack - SQLi | **Confidence:** 90.76% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=16.1608) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

181. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-D26B5767)

Category: PortScan | **Confidence:** 90.94% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=5.4529) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

182. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-E30A011B)

Category: PortScan | **Confidence:** 98.56% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

183. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-25456CA1)

Category: PortScan | **Confidence:** 98.86% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

184. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-50EEBB58)

Category: PortScan | **Confidence:** 79.68% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=7.9989) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

185. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-9B029811)

Category: PortScan | **Confidence:** 98.92% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

186. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-F673A7DC)

Category: PortScan | **Confidence:** 66.58% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=9.9905) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

187. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-D11741FD)

Category: Web Attack - SQLi | **Confidence:** 83.51% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=15.0198) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

188. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-E7B53D3E)

Category: PortScan | **Confidence:** 77.45% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=8.424) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

189. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-0D64140A)

Category: PortScan | **Confidence:** 69.53% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=9.6264) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

190. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-81E88A3A)

Category: PortScan | **Confidence:** 64.49% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=10.2246) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

191. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-21AD61DC)

Category: Web Attack - SQLi | **Confidence:** 85.25% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=15.2517) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

192. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-0EA4EB41)

Category: PortScan | **Confidence:** 98.24% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

193. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-0B39C5EA)

Category: Web Attack - SQLi | **Confidence:** 89.04% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=15.8347) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

194. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-34E2EFF0)

Category: Web Attack - SQLi | **Confidence:** 86.29% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=15.3965) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

195. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-0F409060)

Category: PortScan | **Confidence:** 94.79% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=4.0927) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

196. [MEDIUM] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-4B343310)

Category: Web Attack - SQLi | **Confidence:** 46.69% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=11.8388) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

197. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-83B2F166)

Category: PortScan | **Confidence:** 98.62% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

198. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-274FD4EE)

Category: PortScan | **Confidence:** 61.93% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=10.4979) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

199. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-B5A9D9B5)

Category: PortScan | **Confidence:** 70.54% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=9.4969) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

200. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-3360A203)

Category: PortScan | **Confidence:** 93.34% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=4.6887) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

201. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-7D8D6616)

Category: PortScan | **Confidence:** 74.96% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=8.8465) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

202. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-8D2A5F0E)

Category: PortScan | **Confidence:** 98.95% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

203. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-CA99CA1F)

Category: Web Attack - SQLi | **Confidence:** 77.87% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=14.3597) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

204. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-E9426A07)

Category: PortScan | **Confidence:** 98.32% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.
Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

205. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-C99BDE5E)

Category: PortScan | **Confidence:** 82.27% | **Asset:** /api/v1/network | **Status:** New
Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=7.5272) characteristic of automated host discovery.
Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.
Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

206. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-9047CBDA)

Category: PortScan | **Confidence:** 98.7% | **Asset:** /api/v1/network | **Status:** New
Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.
Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.
Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

207. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-1E7B06CE)

Category: PortScan | **Confidence:** 98.34% | **Asset:** /api/v1/network | **Status:** New
Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.
Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.
Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

208. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-612ECB1E)

Category: PortScan | **Confidence:** 76.77% | **Asset:** /api/v1/network | **Status:** New
Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=8.5472) characteristic of automated host discovery.
Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.
Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

209. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-B3623756)

Category: Web Attack - SQLi | **Confidence:** 92.73% | **Asset:** /api/v1/network | **Status:** New
Description: Abnormally large HTTP payload size (average_packet_size=16.6075) containing high density of SQL/Script injection markers.
Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.
Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

210. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-6BDB93C7)

Category: PortScan | **Confidence:** 67.09% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=9.929) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

211. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-1E0BC99A)

Category: PortScan | **Confidence:** 81.09% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=7.7435) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

212. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-30934B5A)

Category: PortScan | **Confidence:** 85.35% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=6.8966) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

213. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-174124D8)

Category: PortScan | **Confidence:** 68.89% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=9.7079) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

214. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-746B6F27)

Category: Web Attack - SQLi | **Confidence:** 90.47% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=16.1005) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

215. [MEDIUM] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-083A6F9C)

Category: Web Attack - SQLi | **Confidence:** 62.85% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=12.9961) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

216. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-74530402)

Category: PortScan | **Confidence:** 59.87% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=10.7056) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

217. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-0FBA1738)

Category: PortScan | **Confidence:** 89.87% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=5.7742) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

218. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-66FD2EE7)

Category: Web Attack - SQLi | **Confidence:** 83.14% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=14.9714) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

219. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-9E6BA757)

Category: PortScan | **Confidence:** 81.9% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=7.5964) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

220. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-EF3FC877)

Category: PortScan | **Confidence:** 77.14% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=8.4802) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

221. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-71DDCABB)

Category: PortScan | **Confidence:** 82.6% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=7.465) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

222. [MEDIUM] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-944A9341)

Category: Web Attack - SQLi | **Confidence:** 59.6% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=12.7471) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

223. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-D4F5351F)

Category: PortScan | **Confidence:** 96.54% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=3.0481) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

224. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-0C0397B7)

Category: PortScan | **Confidence:** 88.1% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=6.2585) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

225. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-447B2485)

Category: PortScan | **Confidence:** 98.54% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

226. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-03F9EC7E)

Category: PortScan | **Confidence:** 97.75% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

227. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-DE62D607)

Category: PortScan | **Confidence:** 94.07% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=4.4072) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

228. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-B4D5317E)

Category: PortScan | **Confidence:** 97.16% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

229. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-F89BB1E9)

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

230. [MEDIUM] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-26013131)

Category: Web Attack - SQLi | **Confidence:** 68.79% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=13.4853) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

231. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-CD98FC79)

Category: PortScan | **Confidence:** 52.96% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=11.328) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

232. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-12F08580)

Category: PortScan | **Confidence:** 98.56% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

233. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-F8918FAD)

Category: PortScan | **Confidence:** 98.7% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

234. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-5C9DE095)

Category: Web Attack - SQLi | **Confidence:** 76.98% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=14.2674) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

235. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-C10D39FF)

Category: PortScan | **Confidence:** 97.11% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

236. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-F98FD6B5)

Category: PortScan | **Confidence:** 94.93% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=4.0175) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

237. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-1ACC51F3)

Category: PortScan | **Confidence:** 88.76% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=6.0847) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

238. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-194818AB)

Category: PortScan | **Confidence:** 97.34% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

239. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-C59C010A)

Category: Web Attack - SQLi | **Confidence:** 85.09% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=15.229) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

240. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-DAA58A74)

Category: PortScan | **Confidence:** 98.89% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

241. [MEDIUM] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-2120970A)

Category: Web Attack - SQLi | **Confidence:** 59.05% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=12.7054) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

242. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-EB454D2C)

Category: PortScan | **Confidence:** 81.43% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=7.6828) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

243. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-18337E35)

Category: PortScan | **Confidence:** 98.51% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

244. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-D1246BD8)

Category: PortScan | **Confidence:** 98.62% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

245. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-0F5D8AB3)

Category: PortScan | **Confidence:** 76.99% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=8.5077) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

246. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-82B5BEFE)

Category: PortScan | **Confidence:** 62.46% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=10.4428) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

247. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-D2103C0B)

Category: PortScan | **Confidence:** 94.02% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=4.4281) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

248. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-3D92174B)

Category: PortScan | **Confidence:** 87.25% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=6.4517) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

249. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-83237F23)

Category: PortScan | **Confidence:** 65.63% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=10.0984) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

250. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-287F892A)

Category: PortScan | **Confidence:** 91.58% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=5.2504) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

251. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-D870A060)

Category: Web Attack - SQLi | **Confidence:** 90.73% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=16.1537) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

252. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-5C22DF6C)

Category: PortScan | **Confidence:** 94.28% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=4.3168) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

253. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-331864CB)

Category: Web Attack - SQLi | **Confidence:** 85.51% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=15.2874) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

254. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-31405053)

Category: PortScan | **Confidence:** 84.56% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=7.073) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

255. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-12A4E2FC)

Category: PortScan | **Confidence:** 74.54% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=8.9139) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

256. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-5D293A7C)

Category: PortScan | **Confidence:** 82.21% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=7.5395) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

257. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-525DDB50)

Category: PortScan | **Confidence:** 98.48% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

258. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-BBCC7E61)

Category: PortScan | **Confidence:** 70.36% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=9.5207) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

259. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-C82F3F13)

Category: PortScan | **Confidence:** 89.99% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=5.7377) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

260. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-E1F6EAA6)

Category: PortScan | **Confidence:** 94.17% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=4.363) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

261. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-B9B83CD6)

Category: PortScan | **Confidence:** 96.66% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=2.9595) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

262. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-F99C37E7)

Category: Web Attack - SQLi | **Confidence:** 93.32% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=16.7664) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

263. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-3CF7E7AB)

Category: PortScan | **Confidence:** 63.3% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=10.3538) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

264. [MEDIUM] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-C702363C)

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=3.6099) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

288. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-CB4BBF38)

Category: Web Attack - SQLi | **Confidence:** 93.34% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=16.7694) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

289. [MEDIUM] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-FF1402BF)

Category: Web Attack - SQLi | **Confidence:** 63.55% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=13.0505) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

290. [MEDIUM] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-AD3E2FC6)

Category: Web Attack - SQLi | **Confidence:** 65.65% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=13.2191) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

291. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-AA33F90B)

Category: PortScan | **Confidence:** 80.62% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=7.8265) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

292. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-50249E6C)

Category: PortScan | **Confidence:** 88.58% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=6.1331) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

293. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-F76A5DE9)

Category: PortScan | **Confidence:** 98.92% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

294. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-E1C5B64D)

Category: PortScan | **Confidence:** 91.1% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=5.4016) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

295. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-777AD389)

Category: PortScan | **Confidence:** 96.07% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=3.3694) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

296. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-02DFD50D)

Category: Web Attack - SQLi | **Confidence:** 86.71% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=15.4575) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

297. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-DB8793E1)

Category: PortScan | **Confidence:** 89.23% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=5.9577) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

298. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-B22F56D3)

Category: PortScan | **Confidence:** 93.19% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=4.7371) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

299. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-CF48D1E6)

Category: PortScan | **Confidence:** 98.77% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

300. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-8028B34C)

Category: PortScan | **Confidence:** 97.22% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

301. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-2110BCF9)

Category: PortScan | **Confidence:** 98.93% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

302. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-AD72D3D9)

Category: Web Attack - SQLi | **Confidence:** 89.03% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=15.832) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

303. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-77C7196C)

Category: PortScan | **Confidence:** 82.38% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=7.5075) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

304. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-33683511)

Category: PortScan | **Confidence:** 68.48% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=9.7589) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

305. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-D6E98BD8)

Category: PortScan | **Confidence:** 89.69% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=5.8267) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

306. [CRITICAL] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-D06466A2)

Category: Web Attack - SQLi | **Confidence:** 94.01% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=16.9652) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

307. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-750AF824)

Category: Web Attack - SQLi | **Confidence:** 78.71% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=14.4483) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

308. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-FE3463F6)

Category: PortScan | **Confidence:** 97.83% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

309. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-74EC9071)

Category: PortScan | **Confidence:** 98.57% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

310. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-9DE43463)

Category: PortScan | **Confidence:** 90.7% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=5.5281) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

311. [MEDIUM] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-200A5F14)

Category: Web Attack - SQLi | **Confidence:** 58.67% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=12.6771) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

312. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-5AC283AC)

Category: PortScan | **Confidence:** 68.83% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=9.7161) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

313. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-09F15D9F)

Category: PortScan | **Confidence:** 87.43% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=6.4093) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

314. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-BFDD7237)

Category: PortScan | **Confidence:** 97.04% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

315. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-B61DFB81)

Category: PortScan | **Confidence:** 98.25% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

316. [MEDIUM] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-7D3ACD76)

Category: Web Attack - SQLi | **Confidence:** 59.13% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=12.7114) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.
Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

317. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-40FD3598)

Category: PortScan | **Confidence:** 87.04% | **Asset:** /api/v1/network | **Status:** New
Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=6.5009) characteristic of automated host discovery.
Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.
Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

318. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-92F4880F)

Category: Web Attack - SQLi | **Confidence:** 83.97% | **Asset:** /api/v1/network | **Status:** New
Description: Abnormally large HTTP payload size (average_packet_size=15.0804) containing high density of SQL/Script injection markers.
Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.
Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

319. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-ED6A68E9)

Category: Web Attack - SQLi | **Confidence:** 76.37% | **Asset:** /api/v1/network | **Status:** New
Description: Abnormally large HTTP payload size (average_packet_size=14.2038) containing high density of SQL/Script injection markers.
Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.
Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

320. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-EC5C0BB7)

Category: PortScan | **Confidence:** 54.05% | **Asset:** /api/v1/network | **Status:** New
Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=11.2402) characteristic of automated host discovery.
Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.
Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

321. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-5EA530D0)

Category: PortScan | **Confidence:** 80.27% | **Asset:** /api/v1/network | **Status:** New
Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=7.8872) characteristic of automated host discovery.
Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.
Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

322. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-398A8A22)

Category: PortScan | **Confidence:** 67.16% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=9.9197) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

323. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-4060636C)

Category: Web Attack - SQLi | **Confidence:** 91.84% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=16.3938) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

324. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-A39FA95B)

Category: Web Attack - SQLi | **Confidence:** 91.95% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=16.4195) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

325. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-A553492E)

Category: PortScan | **Confidence:** 98.87% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

326. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-D5554B24)

Category: PortScan | **Confidence:** 98.09% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

327. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-34E00024)

Category: PortScan | **Confidence:** 53.9% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=11.2521) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

328. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-19D6BD59)

Category: Web Attack - SQLi | **Confidence:** 91.33% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=16.2791) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

329. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-E0ACE663)

Category: PortScan | **Confidence:** 97.0% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

330. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-7082F63E)

Category: PortScan | **Confidence:** 98.88% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

345. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-E97FE993)

Category: Web Attack - SQLi | **Confidence:** 93.74% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=16.8852) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

346. [MEDIUM] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-F2A6A8E1)

Category: Web Attack - SQLi | **Confidence:** 71.33% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=13.7142) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

347. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-0D0D5C76)

Category: PortScan | **Confidence:** 69.82% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=9.5895) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

348. [MEDIUM] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-16266C26)

Category: Web Attack - SQLi | **Confidence:** 51.09% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=12.1399) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

349. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-730E883B)

Category: PortScan | **Confidence:** 91.93% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=5.1313) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

350. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-CD639069)

Category: PortScan | **Confidence:** 94.53% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=4.2081) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

351. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-3636CD6A)

Category: Web Attack - SQLi | **Confidence:** 86.29% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=15.3969) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

352. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-A0D2EF19)

Category: Web Attack - SQLi | **Confidence:** 90.92% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=16.1924) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

353. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-270FE99A)

Category: PortScan | **Confidence:** 56.64% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=11.0131) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

354. [MEDIUM] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-26A5DD8C)

Category: Web Attack - SQLi | **Confidence:** 53.22% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=12.2859) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

355. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-E358DB49)

Category: PortScan | **Confidence:** 96.22% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=3.2696) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

356. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-3202D456)

Category: PortScan | **Confidence:** 82.42% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=7.4989) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

357. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-23C728D1)

Category: Web Attack - SQLi | **Confidence:** 85.0% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=15.2178) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

358. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-93027954)

Category: Web Attack - SQLi | **Confidence:** 76.39% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=14.206) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

359. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-3BD9D274)

Category: PortScan | **Confidence:** 98.05% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

360. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-2F82DCFB)

Category: PortScan | **Confidence:** 81.9% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=7.5968) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

361. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-8440336D)

Category: PortScan | **Confidence:** 98.51% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

362. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-FACF4B26)

Category: PortScan | **Confidence:** 86.51% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=6.6163) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

363. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-4E66CEA4)

Category: PortScan | **Confidence:** 98.8% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

364. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-42F2A2BB)

Category: PortScan | **Confidence:** 93.18% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=4.7412) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

365. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-3049CA44)

Category: PortScan | **Confidence:** 51.37% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=11.4553) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

366. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-7FB8E846)

Category: PortScan | **Confidence:** 98.55% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

367. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-05FA6C28)

Category: Web Attack - SQLi | **Confidence:** 92.57% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=16.5684) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

368. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-8406264E)

Category: Web Attack - SQLi | **Confidence:** 73.2% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=13.8892) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

369. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-09787B4E)

Category: PortScan | **Confidence:** 98.81% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

370. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-4C67FD8A)

Category: PortScan | **Confidence:** 88.59% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=6.1308) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

371. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-73FE5023)

Category: PortScan | **Confidence:** 70.96% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=9.4406) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

372. [MEDIUM] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-711F4AEC)

Category: Web Attack - SQLi | **Confidence:** 67.84% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=13.4034) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

373. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-0593AF8B)

Category: PortScan | **Confidence:** 82.34% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=7.5145) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

374. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-35BD89F2)

Category: Web Attack - SQLi | **Confidence:** 85.83% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=15.3317) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

375. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-3193C094)

Category: PortScan | **Confidence:** 90.16% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=5.6871) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

376. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-B565DD4A)

Category: PortScan | **Confidence:** 63.14% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=10.3709) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

377. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-B2E300BE)

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.
Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

403. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-C9A13F76)

Category: PortScan | **Confidence:** 80.79% | **Asset:** /api/v1/network | **Status:** New
Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=7.7967) characteristic of automated host discovery.
Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.
Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

404. [MEDIUM] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-224AEE6E)

Category: Web Attack - SQLi | **Confidence:** 64.33% | **Asset:** /api/v1/network | **Status:** New
Description: Abnormally large HTTP payload size (average_packet_size=13.1119) containing high density of SQL/Script injection markers.
Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.
Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

405. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-FB03BD6D)

Category: Web Attack - SQLi | **Confidence:** 81.91% | **Asset:** /api/v1/network | **Status:** New
Description: Abnormally large HTTP payload size (average_packet_size=14.8158) containing high density of SQL/Script injection markers.
Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.
Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

406. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-913E554B)

Category: PortScan | **Confidence:** 65.33% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=10.1316) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

407. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-4ABCFA5F)

Category: PortScan | **Confidence:** 98.9% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

408. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-94250068)

Category: Web Attack - SQLi | **Confidence:** 84.0% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=15.0845) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

409. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-05BE5A7A)

Category: PortScan | **Confidence:** 70.86% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=9.454) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

410. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-C0BC0EA8)

Category: Web Attack - SQLi | **Confidence:** 86.28% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=15.3954) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

411. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-FA15DE9B)

Category: Web Attack - SQLi | **Confidence:** 92.52% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=16.5554) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

412. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-1E7B3163)

Category: Web Attack - SQLi | **Confidence:** 90.45% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=16.0975) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

413. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-254AC2BE)

Category: PortScan | **Confidence:** 57.33% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=10.9483) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

414. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-EDBAF2BA)

Category: PortScan | **Confidence:** 87.14% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=6.4767) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

415. [MEDIUM] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-2B4894A8)

Category: Web Attack - SQLi | **Confidence:** 54.64% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=12.3834) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

416. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-BFD2E5FA)

Category: PortScan | **Confidence:** 76.7% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=8.5595) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

417. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-88DDEE7F)

Category: PortScan | **Confidence:** 90.54% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=5.5743) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

418. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-9B799865)

Category: Web Attack - SQLi | **Confidence:** 81.21% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=14.732) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

419. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-F8A0E836)

Category: PortScan | **Confidence:** 98.38% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

420. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-F1D754A5)

Category: PortScan | **Confidence:** 98.85% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

421. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-DE0008E6)

Category: PortScan | **Confidence:** 98.76% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

422. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-C4A41F57)

Category: PortScan | **Confidence:** 98.73% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

423. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-CD1437BF)

Category: PortScan | **Confidence:** 95.03% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=3.9657) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

424. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-0A19433F)

Category: PortScan | **Confidence:** 98.3% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

425. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-6A4BD484)

Category: PortScan | **Confidence:** 60.14% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=10.6795) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

426. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-895C0D06)

Category: PortScan | **Confidence:** 79.42% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=8.0517) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

427. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-F7ED1EAD)

Category: PortScan | **Confidence:** 97.79% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

428. [MEDIUM] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-A6A296C0)

Category: Web Attack - SQLi | **Confidence:** 62.5% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=12.9686) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

429. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-8C943B76)

Category: Web Attack - SQLi | **Confidence:** 76.05% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=14.1706) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

430. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-2CF91E43)

Category: Web Attack - SQLi | **Confidence:** 81.63% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=14.7819) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

431. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-18613290)

Category: PortScan | **Confidence:** 98.55% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

432. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-6CE58F3F)

Category: PortScan | **Confidence:** 98.74% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

433. [MEDIUM] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-1696F82D)

Category: Web Attack - SQLi | **Confidence:** 52.58% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=12.2416) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

434. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-414DA24F)

Category: PortScan | **Confidence:** 84.04% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=7.1825) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

435. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-BC591E63)

Category: Web Attack - SQLi | **Confidence:** 75.95% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=14.1613) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

436. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-464D6400)

Category: PortScan | **Confidence:** 98.71% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

461. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-825E09F8)

Category: Web Attack - SQLi | **Confidence:** 78.45% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=14.4208) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

462. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-DA4A0408)

Category: Web Attack - SQLi | **Confidence:** 78.61% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=14.4379) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

463. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-7458DBC7)

Category: PortScan | **Confidence:** 94.44% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=4.249) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

464. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-04D84552)

Category: Web Attack - SQLi | **Confidence:** 87.5% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=15.5782) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

465. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-88122A8E)

Category: PortScan | **Confidence:** 70.46% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=9.5069) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

466. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-242DE4E2)

Category: PortScan | **Confidence:** 90.49% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=5.5911) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

467. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-383A949B)

Category: PortScan | **Confidence:** 64.61% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=10.2112) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

468. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-D20C9B80)

Category: PortScan | **Confidence:** 93.3% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=4.7021) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

469. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-8E0F6AB9)

Category: PortScan | **Confidence:** 98.94% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

470. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-C78A99F3)

Category: PortScan | **Confidence:** 96.91% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

471. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-3F40DD5D)

Category: Web Attack - SQLi | **Confidence:** 91.85% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=16.3953) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

472. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-79E93AD1)

Category: PortScan | **Confidence:** 98.28% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

473. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-D875A48B)

Category: PortScan | **Confidence:** 62.64% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=10.4238) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

474. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-379D920F)

Category: Web Attack - SQLi | **Confidence:** 93.13% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=16.7139) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

475. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-7DA00F2F)

Category: Web Attack - SQLi | **Confidence:** 84.55% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=15.1564) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

476. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-A915B263)

Category: PortScan | **Confidence:** 95.76% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=3.5536) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

477. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-5E06D588)

Category: PortScan | **Confidence:** 92.42% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=4.9846) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

478. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-A06709A6)

Category: PortScan | **Confidence:** 91.63% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=5.234) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

479. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-A98CDAF5)

Category: PortScan | **Confidence:** 92.37% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=4.998) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

480. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-8B6DB4EA)

Category: PortScan | **Confidence:** 96.96% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

481. [MEDIUM] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-81F6E681)

Category: Web Attack - SQLi | **Confidence:** 52.92% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=12.2654) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

482. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-556FBB79)

Category: PortScan | **Confidence:** 98.56% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

483. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-3E6F2858)

Category: PortScan | **Confidence:** 98.25% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

484. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-B512C964)

Category: PortScan | **Confidence:** 58.21% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=10.8653) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

485. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-34E35B5B)

Category: Web Attack - SQLi | **Confidence:** 74.75% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=14.0403) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

486. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-D597CDE0)

Category: PortScan | **Confidence:** 88.85% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=6.0601) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

487. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-C7702BBB)

Category: Web Attack - SQLi | **Confidence:** 92.92% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=16.6585) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

488. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-F9FD524E)

Category: PortScan | **Confidence:** 93.71% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=4.5513) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

489. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-89190ECF)

Category: PortScan | **Confidence:** 79.19% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=8.0979) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

490. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-A017B794)

518. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-3ACCCB80)

Category: Web Attack - SQLi | **Confidence:** 93.04% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=16.6901) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

519. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-3B1BE08E)

Category: PortScan | **Confidence:** 78.62% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=8.2088) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

520. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-72E57899)

Category: PortScan | **Confidence:** 87.77% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=6.3326) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

521. [MEDIUM] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-562EBBAA)

Category: Web Attack - SQLi | **Confidence:** 46.66% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=11.8362) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

522. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-D4FB5C38)

Category: PortScan | **Confidence:** 98.92% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

523. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-0400C511)

Category: Web Attack - SQLi | **Confidence:** 85.16% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=15.239) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

524. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-7A25C2C8)

Category: PortScan | **Confidence:** 93.82% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=4.5078) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

525. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-E89CCA6F)

Category: PortScan | **Confidence:** 64.85% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=10.1844) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

526. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-C653B0E5)

Category: PortScan | **Confidence:** 98.8% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

527. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-FBFF3ECD)

Category: Web Attack - SQLi | **Confidence:** 77.66% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=14.3378) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

528. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-8B6B1241)

Category: PortScan | **Confidence:** 60.25% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=10.6691) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

529. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-C0246F58)

Category: PortScan | **Confidence:** 97.7% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

530. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-6E08622C)

Category: PortScan | **Confidence:** 79.0% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=8.1347) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

531. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-D4A3B12E)

Category: Web Attack - SQLi | **Confidence:** 77.54% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=14.3247) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

532. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-BD264D6E)

Category: PortScan | **Confidence:** 74.6% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=8.9042) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

533. [MEDIUM] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-80D1B10E)

Category: Web Attack - SQLi | **Confidence:** 61.62% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=12.9008) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

534. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-C3E832F1)

Category: PortScan | **Confidence:** 94.75% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=4.1083) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

535. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-8B0890B7)

Category: Web Attack - SQLi | **Confidence:** 85.88% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=15.3384) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

536. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-6105450C)

Category: PortScan | **Confidence:** 54.81% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=11.178) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

537. [MEDIUM] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-758C8AD2)

Category: Web Attack - SQLi | **Confidence:** 58.11% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=12.6354) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

538. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-89CDF754)

Category: PortScan | **Confidence:** 68.51% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=9.7556) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

539. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-EA3BC980)

Category: Web Attack - SQLi | **Confidence:** 76.87% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=14.2555) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

540. [MEDIUM] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-E0EFB271)

Category: Web Attack - SQLi | **Confidence:** 50.38% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=12.0912) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

541. [MEDIUM] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-11C6A669)

Category: Web Attack - SQLi | **Confidence:** 70.81% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=13.6658) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

542. [MEDIUM] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-58E59777)

Category: Web Attack - SQLi | **Confidence:** 48.33% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=11.9508) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

543. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-F98CBBA4)

Category: Web Attack - SQLi | **Confidence:** 83.0% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=14.9531) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

544. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-0D645F81)

Category: PortScan | **Confidence:** 95.93% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=3.4565) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

545. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-39B518D3)

Category: PortScan | **Confidence:** 97.77% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

546. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-3C53A051)

Category: PortScan | **Confidence:** 97.76% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

547. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-6B1A2AE7)

Category: PortScan | **Confidence:** 96.72% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=2.9193) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

548. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-3ED8A0DF)

Category: PortScan | **Confidence:** 98.9% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

549. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-0EEF014F)

Category: PortScan | **Confidence:** 80.4% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=7.8648) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

550. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-45FE5412)

Category: PortScan | **Confidence:** 95.26% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=3.8418) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

551. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-47CD6CBD)

Category: PortScan | **Confidence:** 69.94% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=9.5747) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

552. [MEDIUM] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-66334298)

Category: Web Attack - SQLi | **Confidence:** 61.6% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=12.899) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

553. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-EEDC4F8F)

Category: PortScan | **Confidence:** 50.38% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=11.5343) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

554. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-CC418A1B)

Category: PortScan | **Confidence:** 89.64% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=5.8423) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

555. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-F217BA32)

Category: Web Attack - SQLi | **Confidence:** 76.09% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=14.1747) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

556. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-02A97530)

Category: PortScan | **Confidence:** 71.16% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=9.4123) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

557. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-CAD8FFDE)

Category: PortScan | **Confidence:** 93.81% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=4.5133) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

558. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-DC56DA59)

Category: Web Attack - SQLi | **Confidence:** 88.06% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=15.6675) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

559. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-7D43E254)

Category: PortScan | **Confidence:** 86.63% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=6.5898) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

560. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-CC2EED19)

Category: PortScan | **Confidence:** 89.34% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=5.928) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

561. [MEDIUM] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-7146327E)

Category: Web Attack - SQLi | **Confidence:** 70.09% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=13.6007) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

562. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-B81C2BD3)

Category: PortScan | **Confidence:** 95.5% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=3.7033) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

563. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-21D2A506)

Category: PortScan | **Confidence:** 91.73% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=5.1972) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

564. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-892C5222)

Category: PortScan | **Confidence:** 98.88% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

565. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-F0CFF31D)

Category: Web Attack - SQLi | **Confidence:** 79.51% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=14.5366) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=11.4859) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

576. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-313FD4C9)

Category: PortScan | **Confidence:** 97.67% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

577. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-E87A2910)

Category: Web Attack - SQLi | **Confidence:** 93.25% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=16.7471) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

578. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-74EDEE4C)

Category: PortScan | **Confidence:** 89.8% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=5.7954) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

579. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-5CC2C3B2)

Category: PortScan | **Confidence:** 59.35% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=10.7566) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

580. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-FB8A6C35)

Category: PortScan | **Confidence:** 98.54% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

581. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-3D5F0DB0)

Category: PortScan | **Confidence:** 98.84% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

582. [MEDIUM] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-43660F94)

Category: Web Attack - SQLi | **Confidence:** 56.32% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=12.5025) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

583. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-4A1C38D0)

Category: Web Attack - SQLi | **Confidence:** 81.66% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=14.7852) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

584. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-0FFCE3AD)

Category: PortScan | **Confidence:** 46.81% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=11.8149) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

585. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-E41AA72F)

Category: PortScan | **Confidence:** 72.42% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=9.2355) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

586. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-D0AB5EDF)

Category: PortScan | **Confidence:** 75.14% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=8.8164) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

587. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-ECEBA7A6)

Category: PortScan | **Confidence:** 84.49% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=7.0883) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

588. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-3781EFC0)

Category: Web Attack - SQLi | **Confidence:** 86.69% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=15.4557) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

589. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-9D84D56D)

Category: PortScan | **Confidence:** 95.2% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=3.8719) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

590. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-8701276F)

Category: PortScan | **Confidence:** 66.42% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=10.0087) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

591. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-8C7489B4)

Category: PortScan | **Confidence:** 98.46% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

592. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-241E5384)

Category: PortScan | **Confidence:** 64.89% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=10.1803) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

593. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-84E99D43)

Category: PortScan | **Confidence:** 94.61% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=4.1735) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

594. [MEDIUM] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-DCD5F5B5)

Category: Web Attack - SQLi | **Confidence:** 48.38% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=11.9545) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

595. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-71B1D837)

Category: PortScan | **Confidence:** 62.18% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=10.4714) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

596. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-9A61FE2E)

Category: PortScan | **Confidence:** 90.71% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=5.5237) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

597. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-7098DC40)

Category: Web Attack - SQLi | **Confidence:** 83.29% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=14.9911) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

598. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-7C519668)

Category: PortScan | **Confidence:** 46.96% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=11.803) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

599. [MEDIUM] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-C2CBE846)

Category: Web Attack - SQLi | **Confidence:** 60.43% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=12.81) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

600. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-701D16E0)

Category: PortScan | **Confidence:** 97.91% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

601. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-26583582)

Category: Web Attack - SQLi | **Confidence:** 76.63% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=14.2306) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

602. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-B0ACF305)

Category: Web Attack - SQLi | **Confidence:** 86.16% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=15.3775) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

603. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-A831967E)

Category: PortScan | **Confidence:** 84.53% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=7.0805) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

604. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-3706311F)

Category: PortScan | **Confidence:** 60.41% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=10.6527) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

605. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-2C0E8523)

Category: PortScan | **Confidence:** 82.92% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=7.4044) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

606. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-9C58E90A)

Category: PortScan | **Confidence:** 56.52% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=11.0239) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

607. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-952D8A10)

Category: Web Attack - SQLi | **Confidence:** 73.02% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=13.8721) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

608. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-F5E48D03)

Category: PortScan | **Confidence:** 70.6% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=9.489) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

609. [MEDIUM] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-E31C70AC)

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=10.6028) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

634. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-DAD94BCD)

Category: PortScan | **Confidence:** 98.31% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

635. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-5AC7194C)

Category: PortScan | **Confidence:** 97.85% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

636. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-715AAE09)

Category: PortScan | **Confidence:** 98.82% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

637. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-0D9D0048)

Category: PortScan | **Confidence:** 61.51% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=10.5407) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

638. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-84A43D9B)

Category: PortScan | **Confidence:** 47.89% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=11.7301) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

639. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-E2727300)

Category: Web Attack - SQLi | **Confidence:** 86.31% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=15.3995) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

640. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-14021F64)

Category: PortScan | **Confidence:** 98.92% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

641. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-DB0630E3)

Category: Web Attack - SQLi | **Confidence:** 85.83% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=15.3314) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

642. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-931B0125)

Category: PortScan | **Confidence:** 98.87% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

643. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-FAD0CC1E)

Category: PortScan | **Confidence:** 76.29% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=8.6291) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

644. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-835284E1)

Category: PortScan | **Confidence:** 68.66% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=9.7373) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

645. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-7AD8B782)

Category: PortScan | **Confidence:** 96.97% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

646. [MEDIUM] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-048C2C61)

Category: Web Attack - SQLi | **Confidence:** 68.5% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=13.4604) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

647. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-1482F353)

Category: PortScan | **Confidence:** 94.66% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=4.1526) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

648. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-97E39A82)

Category: PortScan | **Confidence:** 96.19% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=3.2905) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

649. [MEDIUM] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-50E15EB4)

Category: Web Attack - SQLi | **Confidence:** 66.39% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=13.2802) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

650. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-577203CB)

Category: PortScan | **Confidence:** 96.11% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=3.3456) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

651. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-8B419FA3)

Category: PortScan | **Confidence:** 76.37% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=8.6153) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

652. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-B07AD0FD)

Category: PortScan | **Confidence:** 98.65% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

653. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-8193E356)

Category: PortScan | **Confidence:** 74.89% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=8.8566) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

654. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-0BBE8179)

Category: PortScan | **Confidence:** 98.95% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

655. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-0F24B009)

Category: Web Attack - SQLi | **Confidence:** 86.37% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=15.408) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

656. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-C72BCF63)

691. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-3AF80A74)

Category: PortScan | **Confidence:** 95.45% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=3.7275) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

692. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-AC58C930)

Category: PortScan | **Confidence:** 98.07% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

693. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-9BC6BD56)

Category: PortScan | **Confidence:** 98.89% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

694. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-E388992B)

Category: Web Attack - SQLi | **Confidence:** 85.36% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=15.2658) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

695. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-981252F8)

Category: PortScan | **Confidence:** 98.76% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

696. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-7AD2AFC0)

Category: PortScan | **Confidence:** 97.76% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

697. [MEDIUM] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-8E29E53F)

Category: Web Attack - SQLi | **Confidence:** 53.77% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=12.3238) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

698. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-380B54D1)

Category: Web Attack - SQLi | **Confidence:** 90.5% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=16.1083) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

699. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-342C76B5)

Category: PortScan | **Confidence:** 84.58% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=7.0686) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

700. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-BCB535E4)

Category: PortScan | **Confidence:** 97.97% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

701. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-4CF4D0B5)

Category: PortScan | **Confidence:** 91.32% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=5.3312) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

702. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-7F7C3C61)

Category: PortScan | **Confidence:** 66.35% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=10.0169) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

703. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-220A90D2)

Category: PortScan | **Confidence:** 78.74% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=8.1861) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

704. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-931F4089)

Category: PortScan | **Confidence:** 94.78% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=4.0934) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

705. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-659BB664)

Category: PortScan | **Confidence:** 78.24% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=8.2792) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

706. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-52336129)

Category: PortScan | **Confidence:** 94.89% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=4.0435) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

707. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-BF4A8A1A)

Category: PortScan | **Confidence:** 89.79% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=5.7984) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

708. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-8E5855E7)

Category: PortScan | **Confidence:** 63.12% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=10.3728) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.
Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

709. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-975E4E68)

Category: PortScan | **Confidence:** 98.29% | **Asset:** /api/v1/network | **Status:** New
Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.
Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.
Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

710. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-09C49DD6)

Category: Web Attack - SQLi | **Confidence:** 87.87% | **Asset:** /api/v1/network | **Status:** New
Description: Abnormally large HTTP payload size (average_packet_size=15.6377) containing high density of SQL/Script injection markers.
Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.
Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

711. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-E2D5698D)

Category: Web Attack - SQLi | **Confidence:** 79.32% | **Asset:** /api/v1/network | **Status:** New
Description: Abnormally large HTTP payload size (average_packet_size=14.5157) containing high density of SQL/Script injection markers.
Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.
Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

712. [MEDIUM] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-04BB185E)

Category: Web Attack - SQLi | **Confidence:** 60.72% | **Asset:** /api/v1/network | **Status:** New
Description: Abnormally large HTTP payload size (average_packet_size=12.8316) containing high density of SQL/Script injection markers.
Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.
Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

713. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-AE4A4367)

Category: Web Attack - SQLi | **Confidence:** 92.36% | **Asset:** /api/v1/network | **Status:** New
Description: Abnormally large HTTP payload size (average_packet_size=16.5159) containing high density of SQL/Script injection markers.
Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.
Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

714. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-988882DC)

Category: PortScan | **Confidence:** 84.98% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=6.9818) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

715. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-23AC51AC)

Category: PortScan | **Confidence:** 98.36% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

716. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-D14A9F26)

Category: PortScan | **Confidence:** 57.09% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=10.9706) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

717. [MEDIUM] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-8D4B5C0E)

Category: Web Attack - SQLi | **Confidence:** 54.59% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=12.38) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

718. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-CC198897)

Category: PortScan | **Confidence:** 83.59% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=7.2763) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

719. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-58B0F99C)

Category: PortScan | **Confidence:** 92.74% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=4.8811) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

720. [MEDIUM] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-2DF6605D)

Category: Web Attack - SQLi | **Confidence:** 56.53% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=12.5181) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

721. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-40782F6F)

Category: PortScan | **Confidence:** 85.39% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=6.8854) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

722. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-E26576D8)

Category: PortScan | **Confidence:** 76.92% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=8.52) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

723. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-8D121EF2)

Category: Web Attack - SQLi | **Confidence:** 87.45% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=15.5711) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

724. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-9434335D)

Category: Web Attack - SQLi | **Confidence:** 74.09% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=13.9756) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

725. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-9F3E5AB7)

Category: Web Attack - SQLi | **Confidence:** 92.78% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=16.6227) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

726. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-967B2927)

Category: PortScan | **Confidence:** 92.61% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=4.9243) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

727. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-4FD6A364)

Category: PortScan | **Confidence:** 98.89% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

728. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-D5B9EA89)

Category: PortScan | **Confidence:** 97.96% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

729. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-04A65E03)

Category: PortScan | **Confidence:** 98.8% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

730. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-2B3FF2B4)

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

749. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-E4B17B30)

Category: PortScan | **Confidence:** 87.93% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=6.2984) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

750. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-FF2B4BE0)

Category: PortScan | **Confidence:** 94.68% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=4.1415) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

751. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-B9793EDD)

Category: PortScan | **Confidence:** 89.81% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=5.7924) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

752. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-45AAE9B1)

Category: PortScan | **Confidence:** 67.89% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=9.8319) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

753. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-43607F8F)

Category: PortScan | **Confidence:** 91.52% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=5.2676) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

754. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-C1105C3F)

Category: PortScan | **Confidence:** 88.67% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=6.1104) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

755. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-C4403DEF)

Category: PortScan | **Confidence:** 98.87% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

756. [MEDIUM] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-6C11291D)

Category: Web Attack - SQLi | **Confidence:** 50.44% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=12.0953) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

757. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-AD9D4E16)

Category: PortScan | **Confidence:** 96.05% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=3.3824) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

758. [MEDIUM] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-15EBD4F8)

Category: Web Attack - SQLi | **Confidence:** 53.97% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=12.3376) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

759. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-D0876E8E)

Category: PortScan | **Confidence:** 79.54% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=8.0286) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

760. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-084FE887)

Category: Web Attack - SQLi | **Confidence:** 78.87% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=14.4655) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

761. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-1A6B33FB)

Category: PortScan | **Confidence:** 98.83% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

762. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-C2157B12)

Category: PortScan | **Confidence:** 78.96% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=8.1444) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

763. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-CFF421A6)

Category: PortScan | **Confidence:** 90.14% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=5.6957) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

764. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-F2970A7B)

Category: PortScan | **Confidence:** 80.32% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=7.8801) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

765. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-40F37027)

Category: Web Attack - SQLi | **Confidence:** 72.24% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=13.7987) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

766. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-D2AAC3EA)

Category: PortScan | **Confidence:** 53.61% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=11.2759) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

767. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-C383C92D)

Category: PortScan | **Confidence:** 98.14% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

768. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-8CD7F169)

Category: PortScan | **Confidence:** 98.45% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

769. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-F07E4744)

Category: PortScan | **Confidence:** 93.5% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=4.6299) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

770. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-998FEED1)

Category: PortScan | **Confidence:** 76.66% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=8.5673) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

771. [MEDIUM] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-A3EAC5AB)

Category: Web Attack - SQLi | **Confidence:** 64.8% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=13.1491) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

772. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-BF8AFE84)

Category: Web Attack - SQLi | **Confidence:** 85.53% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=15.29) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

773. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-B1E668C3)

Category: PortScan | **Confidence:** 98.64% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

774. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-63F871F9)

Category: PortScan | **Confidence:** 95.82% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=3.5168) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

775. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-7FF652DC)

Category: PortScan | **Confidence:** 89.94% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=5.7534) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

776. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-55D2774D)

Category: PortScan | **Confidence:** 71.4% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=9.3788) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

777. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-CD77F37E)

Category: PortScan | **Confidence:** 98.5% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

778. [MEDIUM] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-1D39A64D)

Category: Web Attack - SQLi | **Confidence:** 60.72% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=12.8316) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

779. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-15E44F24)

Category: PortScan | **Confidence:** 98.77% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

807. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-4F7B0B1E)

Category: PortScan | **Confidence:** 82.55% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=7.4747) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

808. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-28561DE2)

Category: PortScan | **Confidence:** 89.59% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=5.8572) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

809. [MEDIUM] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-916E7644)

Category: Web Attack - SQLi | **Confidence:** 54.78% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=12.3931) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

810. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-330F3987)

Category: PortScan | **Confidence:** 71.33% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=9.3889) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

811. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-0F8619A1)

Category: PortScan | **Confidence:** 79.39% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=8.0584) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

812. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-764C68E9)

Category: Web Attack - SQLi | **Confidence:** 88.08% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=15.6705) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

813. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-E185B7D1)

Category: PortScan | **Confidence:** 55.23% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=11.1411) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

814. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-4E9ADB13)

Category: Web Attack - SQLi | **Confidence:** 87.81% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=15.6269) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

815. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-BD463157)

Category: PortScan | **Confidence:** 73.52% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=9.074) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

816. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-F5F65177)

Category: PortScan | **Confidence:** 97.19% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

817. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-EB0338A1)

Category: PortScan | **Confidence:** 97.16% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

818. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-EC8F77BA)

Category: PortScan | **Confidence:** 77.12% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=8.4835) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

819. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-C2ED0552)

Category: PortScan | **Confidence:** 98.35% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

820. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-F43F00F6)

Category: PortScan | **Confidence:** 98.91% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.
Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

821. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-2E816ED7)

Category: PortScan | **Confidence:** 96.06% | **Asset:** /api/v1/network | **Status:** New
Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=3.3757) characteristic of automated host discovery.
Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.
Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

822. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-1F807B36)

Category: PortScan | **Confidence:** 68.57% | **Asset:** /api/v1/network | **Status:** New
Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=9.7481) characteristic of automated host discovery.
Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.
Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

823. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-EB2066F8)

Category: PortScan | **Confidence:** 84.97% | **Asset:** /api/v1/network | **Status:** New
Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=6.9856) characteristic of automated host discovery.
Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.
Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

824. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-40461421)

Category: Web Attack - SQLi | **Confidence:** 86.67% | **Asset:** /api/v1/network | **Status:** New
Description: Abnormally large HTTP payload size (average_packet_size=15.4516) containing high density of SQL/Script injection markers.
Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.
Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

825. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-78FAFCF7)

Category: Web Attack - SQLi | **Confidence:** 93.36% | **Asset:** /api/v1/network | **Status:** New
Description: Abnormally large HTTP payload size (average_packet_size=16.7754) containing high density of SQL/Script injection markers.
Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.
Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

826. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-850C52A4)

Category: Web Attack - SQLi | **Confidence:** 85.54% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=15.2908) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

827. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-9C70534C)

Category: Web Attack - SQLi | **Confidence:** 86.34% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=15.4043) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

828. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-A4364EE3)

Category: PortScan | **Confidence:** 72.15% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=9.2731) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

829. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-E89A8054)

Category: PortScan | **Confidence:** 72.26% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=9.2582) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

830. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-5B94D6A2)

Category: Web Attack - SQLi | **Confidence:** 89.54% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=15.9244) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

831. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-8FC93E65)

Category: PortScan | **Confidence:** 79.3% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=8.0752) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

832. [MEDIUM] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-786DDD72)

Category: Web Attack - SQLi | **Confidence:** 59.79% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=12.7612) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

833. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-5CA8857C)

Category: Web Attack - SQLi | **Confidence:** 83.0% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=14.9528) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

834. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-111773A6)

Category: PortScan | **Confidence:** 77.92% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=8.3387) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

835. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-12066AA5)

Category: PortScan | **Confidence:** 95.17% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=3.8902) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

836. [MEDIUM] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-C6ADADF4)

Category: PortScan | **Confidence:** 98.87% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

865. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-4AA931B5)

Category: Web Attack - SQLi | **Confidence:** 87.81% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=15.6273) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

866. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-AE0E7108)

Category: Web Attack - SQLi | **Confidence:** 93.79% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=16.9001) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

867. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-18C1B3E0)

Category: PortScan | **Confidence:** 95.06% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=3.9482) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

868. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-8D580183)

Category: PortScan | **Confidence:** 98.65% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

869. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-69FBA49F)

Category: PortScan | **Confidence:** 97.91% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

870. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-AA0CD490)

Category: PortScan | **Confidence:** 75.25% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=8.7981) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

871. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-D386401E)

Category: PortScan | **Confidence:** 87.17% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=6.4692) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

872. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-6A176631)

Category: PortScan | **Confidence:** 98.44% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

873. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-14A5F64F)

Category: Web Attack - SQLi | **Confidence:** 85.03% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=15.2219) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

874. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-0341373C)

Category: Web Attack - SQLi | **Confidence:** 79.21% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=14.5034) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

875. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-774277AA)

Category: PortScan | **Confidence:** 97.48% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

876. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-D956603D)

Category: PortScan | **Confidence:** 95.97% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=3.4301) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.
Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

877. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-FAB38670)

Category: PortScan | **Confidence:** 96.08% | **Asset:** /api/v1/network | **Status:** New
Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=3.3642) characteristic of automated host discovery.
Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.
Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

878. [MEDIUM] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-B8DAA30E)

Category: Web Attack - SQLi | **Confidence:** 65.04% | **Asset:** /api/v1/network | **Status:** New
Description: Abnormally large HTTP payload size (average_packet_size=13.1685) containing high density of SQL/Script injection markers.
Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.
Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

879. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-83A70A11)

Category: PortScan | **Confidence:** 85.45% | **Asset:** /api/v1/network | **Status:** New
Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=6.8724) characteristic of automated host discovery.
Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.
Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

880. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-F4B42713)

Category: Web Attack - SQLi | **Confidence:** 86.68% | **Asset:** /api/v1/network | **Status:** New
Description: Abnormally large HTTP payload size (average_packet_size=15.4538) containing high density of SQL/Script injection markers.
Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.
Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

881. [MEDIUM] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-F3B07A37)

Category: Web Attack - SQLi | **Confidence:** 71.56% | **Asset:** /api/v1/network | **Status:** New
Description: Abnormally large HTTP payload size (average_packet_size=13.7355) containing high density of SQL/Script injection markers.
Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.
Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

882. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-6068B1B5)

Category: PortScan | **Confidence:** 98.25% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

883. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-1E7CF15C)

Category: PortScan | **Confidence:** 98.84% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

884. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-E52298E8)

Category: PortScan | **Confidence:** 96.39% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=3.155) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

885. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-D501C3AD)

Category: PortScan | **Confidence:** 69.21% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=9.6677) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

886. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-43C7F862)

Category: PortScan | **Confidence:** 97.13% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

887. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-F1BFDC2F)

Category: PortScan | **Confidence:** 98.93% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

888. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-5C5554CB)

Category: Web Attack - SQLi | **Confidence:** 86.38% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=15.4103) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

889. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-8BA9B7E0)

Category: PortScan | **Confidence:** 96.13% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=3.334) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

922. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-DCBF491F)

Category: Web Attack - SQLi | **Confidence:** 93.72% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=16.8781) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

923. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-9AD6B076)

Category: PortScan | **Confidence:** 83.84% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=7.2245) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

924. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-26A1A7B6)

Category: PortScan | **Confidence:** 70.06% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=9.5594) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

925. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-7864C308)

Category: PortScan | **Confidence:** 70.98% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=9.4373) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

926. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-05291258)

Category: PortScan | **Confidence:** 98.84% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

927. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-C0D00196)

Category: PortScan | **Confidence:** 74.92% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=8.8517) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

928. [MEDIUM] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-3D72A09D)

Category: Web Attack - SQLi | **Confidence:** 54.36% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=12.3644) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

929. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-65DDDE21)

Category: PortScan | **Confidence:** 71.96% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=9.2999) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

930. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-79A356A9)

Category: PortScan | **Confidence:** 73.86% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=9.0222) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

931. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-D560C747)

Category: PortScan | **Confidence:** 98.22% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

932. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-C103CE51)

Category: Web Attack - SQLi | **Confidence:** 92.45% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=16.5382) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

933. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-021163EE)

Category: Web Attack - SQLi | **Confidence:** 92.21% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=16.4798) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

934. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-33DE6279)

Category: Web Attack - SQLi | **Confidence:** 91.83% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=16.3904) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

935. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-46934CE3)

Category: PortScan | **Confidence:** 83.38% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=7.3176) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

936. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-9BD1F8C1)

Category: PortScan | **Confidence:** 60.87% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=10.6066) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

937. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-2135B1A1)

Category: PortScan | **Confidence:** 88.24% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=6.2224) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

938. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-D20AE56E)

Category: PortScan | **Confidence:** 90.71% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=5.5237) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

939. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-A9A42236)

Category: Web Attack - SQLi | **Confidence:** 91.7% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=16.3614) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

940. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-1ED1A1B1)

Category: Web Attack - SQLi | **Confidence:** 82.98% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=14.9505) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

941. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-726685A4)

Category: PortScan | **Confidence:** 47.23% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=11.7818) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

942. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-240717DF)

Category: PortScan | **Confidence:** 89.68% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=5.8304) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

943. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-80CFD8FA)

Category: PortScan | **Confidence:** 95.44% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=3.7338) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

944. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-7BF4DA49)

Category: PortScan | **Confidence:** 97.19% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

945. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-3BB3B7CE)

Category: Web Attack - SQLi | **Confidence:** 90.16% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=16.0401) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

946. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-1241F6CF)

Category: Web Attack - SQLi | **Confidence:** 92.67% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=16.5926) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

947. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-7FC7E828)

Category: Web Attack - SQLi | **Confidence:** 72.67% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=13.8389) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

948. [MEDIUM] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-E20154D6)

Category: Web Attack - SQLi | **Confidence:** 54.62% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=12.3823) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

949. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-8543B600)

Category: PortScan | **Confidence:** 98.77% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

950. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-F5747C1A)

Category: PortScan | **Confidence:** 56.0% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=11.0715) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

951. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-01330F28)

Category: Web Attack - SQLi | **Confidence:** 86.13% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=15.373) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

952. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-DC2B7481)

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

980. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-376CEDE1)

Category: Web Attack - SQLi | **Confidence:** 93.21% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=16.7363) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

981. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-406FA784)

Category: PortScan | **Confidence:** 85.7% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=6.8076) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

982. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-001122F6)

Category: PortScan | **Confidence:** 65.37% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=10.1271) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

983. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-54A07891)

Category: PortScan | **Confidence:** 91.51% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=5.2709) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

984. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-0A76EF37)

Category: Web Attack - SQLi | **Confidence:** 91.11% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=16.233) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

985. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-A8491249)

Category: PortScan | **Confidence:** 96.46% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=3.1006) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

986. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-13C8C61B)

Category: Web Attack - SQLi | **Confidence:** 72.92% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=13.8628) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

987. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-01C14815)

Category: PortScan | **Confidence:** 83.56% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=7.2822) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

988. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-AEBC2B7C)

Category: Web Attack - SQLi | **Confidence:** 92.62% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=16.5818) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

989. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-2DB297B2)

Category: PortScan | **Confidence:** 62.88% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=10.3977) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

990. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-0353529A)

Category: PortScan | **Confidence:** 83.92% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=7.2089) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

991. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-AA78C3B7)

Category: PortScan | **Confidence:** 80.88% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=7.7818) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

992. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-31F47DBC)

Category: Web Attack - SQLi | **Confidence:** 87.66% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=15.6035) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

993. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-105A367F)

Category: PortScan | **Confidence:** 98.14% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

994. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-467D5CE3)

Category: PortScan | **Confidence:** 73.66% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=9.052) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

995. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-253E0607)

Category: PortScan | **Confidence:** 92.02% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=5.1004) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

996. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-53071E4B)

Category: PortScan | **Confidence:** 52.03% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=11.4025) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

997. [MEDIUM] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-98AF91DC)

Category: Web Attack - SQLi | **Confidence:** 65.74% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=13.2262) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

998. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-159906CA)

Category: PortScan | **Confidence:** 70.34% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=9.5233) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

999. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-082C4A12)

Category: PortScan | **Confidence:** 98.29% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

1000. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-DE425D27)

Category: PortScan | **Confidence:** 92.33% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=5.0099) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

1001. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-3892EF85)

Category: PortScan | **Confidence:** 98.67% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

1002. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-D3E4C0D7)

Category: PortScan | **Confidence:** 98.94% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

1003. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-80B47A20)

Category: Web Attack - SQLi | **Confidence:** 92.72% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=16.6064) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

1004. [HIGH] AI Alert: Web Attack - SQLi Activity Detected from 0 (VULN-EF1521F2)

Category: Web Attack - SQLi | **Confidence:** 72.01% | **Asset:** /api/v1/network | **Status:** New

Description: Abnormally large HTTP payload size (average_packet_size=13.7771) containing high density of SQL/Script injection markers.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

1005. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-6088E645)

Category: PortScan | **Confidence:** 61.79% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=10.512) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

1006. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-1DD63835)

Category: PortScan | **Confidence:** 96.93% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

1007. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-CC559DE6)

Category: PortScan | **Confidence:** 98.53% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

1008. [MEDIUM] AI Alert: PortScan Activity Detected from 0 (VULN-80271806)

Category: PortScan | **Confidence:** 98.85% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (min_packet_length=-2.809) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

1009. [LOW] AI Alert: PortScan Activity Detected from 0 (VULN-44570771)

Category: PortScan | **Confidence:** 48.99% | **Asset:** /api/v1/network | **Status:** New

Description: Single-packet connection attempts across destination ports with near-zero flow duration (average_packet_size=11.6441) characteristic of automated host discovery.

Potential Impact: Potential unauthorized exploitation or denial of service attack vector targeting 0.

Recommended Remediation: Block inbound traffic from source IP 0 and review security policies.

5. Ethical Boundaries & Scope Statement

CyberSentinel AI operates strictly as an educational and defensive security threat analysis platform. It does not perform autonomous exploitation, credential theft, unauthorized network scanning, or payload execution. All intelligence generated herein is intended solely for security posture hardening and risk mitigation.
